

ARTICLE 8--ADMINISTRATION AND ENFORCEMENT

The provisions of this Ordinance shall be administered and enforced by the Tompkins Township Building Inspector. He may be provided with the assistance of any law enforcing office the Township may direct to help enforce this Ordinance.

8.01 Certificate of Compliance Required

In case any building or structure, except as otherwise provided in this Ordinance, is proposed to be erected, moved, added to or structurally altered, or any land, except as otherwise provided in this Ordinance, is to be used, a Certificate of Compliance shall be obtained from the owner, or his agent, stating that such building, structure, or land will conform to the requirements of the District in which located.

8.02 Building Permits

Except as otherwise provided in this Ordinance, no building or other structure shall be erected, moved, added to or structurally altered without a permit therefor, issued by the Building Inspector. Such building permit shall not be issued unless the use of the structure and/or premises will be in conformity with the provisions of this Ordinance, or except after specific authorization from the Board of Appeals. Further provided, that when a private water supply and/or sewage disposal system is necessary, the written approval of such systems, by the Jackson County Health Department, shall be filed with the Building Inspector as a condition precedent to the issuance of the building permit.
